

## Default Control Scheme | TSM V2.10

BEWARE of key conflicts with GTAV game controls and/or other script modifications, especially trainers.  
When possible, it is recommended that trainer keys be disabled while operating this modification.

DEFAULT KEY COMBO	.INI FILE REFERENCE	EFFECT
Section: [ CONTROL ]		
Alt + F12	Enter_Train	Enter the closest locomotive or exit the one you are in.
F12	Enter_Train	Toggle control of the train once inside.
